MEMORANDUM FOR:

Office of Logistics

STAT

FROM:

Director of Central Intelligence

SUBJECT:

Office of Logistics "Yellow Pages"

The "Yellow Pages" was recently brought to my attention by one of your colleagues. I was struck by the sheer volume of information you have compiled, organized, and presented in this easy to use reference. Many people turn to the Office of Logistics when they reach a stumbling block or critical point in a key project in their areas of responsibility, and time is a factor. This booklet cuts right through the complexities of the logistics business and goes a long way towards making us a more effective and efficient organization.

Your ingenuity, commitment, and hard work are appreciated by OL and its customers. I want to add my appreciation to theirs. Keep up the good work.

William J. Casey
